A creative thinker with a keen eye for detail, eager to leverage education and training to support growth and success of a high performing organization. Strong track record of setting effective goals and leading to achieve the goals. Committed to continuous improvement and driving team success.

EXPERIENCE

Research Assistant

kathmandu

Teksewa

Jun, 2023 - Present

As a Research Assistant, I led the IT audit project for the US-based company, Teksewa. Demonstrating strengths in fortifying cybersecurity through comprehensive audits, insightful reports, gap assessment, and strategic contributions, I played a key role in refining cybersecurity strategies, organizing training sessions, and contributing to incident response. My proactive approach and technical expertise significantly enhanced cybersecurity resilience at Teksewa. The company was able to obtain the certification of ISO 27001:2013, and I am also currently involved with them as an Assistant Consultant.

Prabhu Mahalaxmi Insurance

Dec, 2023 - Jan, 2024

In my role as a Research Assistant at Prabhu Mahalaxmi Life Insurance, I led the annual cybersecurity IT audit, aligning the assessment with ISO 27001:2013 standards. Through a meticulous process, I conducted a thorough analysis to evaluate the company's adherence to these international security standards. Employing gap assessments, I identified areas for improvement and gauged the organization's security resilience. The culmination of these efforts resulted in the creation of a detailed IT audit report, underlining my proficiency in implementing and assessing cybersecurity measures based on recognized standards. This experience serves as a testament to my capability in ensuring robust security protocols and would be a valuable addition to my CV.

Himalayan Everest Insurance

Dec, 2023 - Jan, 2024

During my tenure as a Research Assistant at Himalayan Everest Insurance, I took charge of the annual cybersecurity IT audit, thoroughly dissecting the company's security architecture. Employing a meticulous gap assessment, I pinpointed areas ripe for improvement and gauged the overall security landscape. The culmination of my efforts materialized in a comprehensive IT audit report, underscoring my prowess in cybersecurity risk management and strategic analysis. This role not only fortified the organization's digital defenses but also showcased my ability to distill complex insights into actionable strategies, a valuable asset for optimizing IT security protocols on a broader scale.
